W63CA

**User Manual** 

#### Introduction

Thank you for purchasing the W63CA.

Before using it for the first time, be sure to read the Basic Manual (this PDF manual) so as to know how to use it correctly. After you finish reading this manual, store it and the printed materials that come with the phone in a safe place for future reference.

#### Printed Manuals for the W63CA (Japanese)

The W63CA comes with a Basic Manual and an Instruction Manual.

# For information about basic operation

#### Basic Manual Refer to this English

For detailed information about each function

# **Instruction Manual** English version not available.

The following information is also available on the au website.

PDF manual.

- To download the Basic Manual or Instruction Manual (http://www.au.kddi.com/torisetsu/index.html)
- To access a keyword searchable au On-Line Manual (http://www.au.kddi.com/manual/index.html)

You can also access the au On-Line Manual using EZweb.

#### **EZweb Access**

#### 

The typeface, fonts, and colors of the texts on the screens shown in this manual may differ from the actual contents. Also, certain icons and the scroll bars may be omitted.

# **Cellphone Etiquette**

# Mind your manners!

A cellphone always emits weak radio waves while it is turned on. Enjoy operation of your cellphone without forgetting to be considerate of those around you.

# Some locations do not allow the use of cellphones.

- Using a cellphone while driving is dangerous and prohibited by the Traffic Control Law.
- Using a cellphone inside of an aircraft is prohibited by the law. Be sure to turn off your cellphone before takeoff.

# Watch out where you use your cellphone, and keep your voice down.

- Do not make calls at cinemas, theaters, museums, libraries, or other similar locations. Turn off the cellphone or use Manner Mode to ensure that the ringtone does not disturb others.
- When in public, move to a location where you will not be blocking traffic.
- On the Shinkansen, in a hotel lobby, or in other similar locations, move to a location where you will not disturb others.
- Take care to avoid talking on the phone in a loud voice.
- Before taking the picture of others, be sure to obtain permissions first.

# Cellphone radio waves may interfere with electrical medical equipment.

- On a train or in other crowded locations, there is always the possibility that someone nearby may be wearing a pacemaker. Turn off your cellphone when you are in a crowded area.
- Follow the rules of hospitals and other medical facilities prohibiting the use or possession of cellphones.

# **Cellphone Basics**

# **Features**

#### Camera

Shoot photos and record movies, and send them by e-mail.

#### **EZ Navi**

EZ Navi Walk,
Passenger Seat Navi,
Evacuate Navi and
Security Navi allow you
to get various kinds of
location information.
They are all built-in
functions.

#### **EZ FeliCa**

Use the cellphone for shopping by using electronic money, or use it as member's cards, point cards, and so on.

### au Media Tuner

Enjoy using Television (1Seg) and EZ Channel-Plus.

### **Security Setup**

Select either "Safety Buzzer" or "HOT DIAL" as reliable setting function.

#### Mail

Send mail messages to other cellphones or to PCs.

#### **EZweb**

Download "Chaku-Uta®"/other data or access sites.

#### ाणि विश्वा

For other useful functions, see page 86.

## **Manner Mode and Answer Memo**

#### **Manner Mode**

Use Manner Mode to turn off the ringtone so as not to bother others around you.

While the standby screen is displayed, hold down \(\text{77-}\) for at least one second.

#### **Answer Memo**

If you cannot answer a call, Answer Memo plays an answering message and records the caller's message.

While the standby screen is displayed, hold down prove for at least one second.

# **Checking Power, Signal Strength, and Battery Level**

### Normally leave the phone turned on.

The phone needs to be turned on to make and receive calls.

Hold down for at least 2.5 seconds to turn on W63CA. After a while, W63CA turns on with tone and the standby screen appears.

# You cannot talk on the phone if it is unable to receive a signal.

Signal strength is low in some areas, even if they are within the service area.

indicates the current signal strength.

## Keep an eye on the battery level.

The phone may not function properly if battery power is low.

indicates the current battery level.

# Never use your cellphone while driving!

Do not use the cellphone while driving a car/motorcycle/bicycle. It may cause a traffic accident. Use of the cellphone while driving a car/motorcycle is forbidden by the law. Use of the cellphone while driving a bicycle may be punished by the law too.

 Reading mail or looking at the display.

X Holding a cellphone in your hand to talk.

# Turn off your cellphone or use Drive Mode while driving.

### **Drive Mode**

In Drive Mode, the phone will play the message "ただいま移動中ですので電話に出ることができません。…" (I am traveling and unable to answer the phone right now…), and then ask the caller to leave a message using Answer Memo.

While the standby screen is displayed, press  $\frac{2}{2}$ , and press  $\frac{2}{2}$  (Drive) to turn on Drive Mode.

# **Beware of spam and One-ring Calls!**

### If you get spam

You can set up mail filters to block specific mail or spoof mail.

The following are the main features your cellphone uses to block spam.

- · Blocking of "未承諾広告※" (unsolicited advertisement) mail
- · Blocking of specific mail
- · Blocking of spoof mail

# **Beware of One-ring Calls!**

A "One-ring Call" (wan-giri in Japanese) rings your phone only once, in an attempt to make you call back to a service that automatically bills you very high charges.

If W63CA received a "One-ring Call," the icon appears at the head of an incoming history.

# **Disaster Message Board Service**

#### **Disaster Message Board**

The Disaster Message Board lets you use EZweb to register information about your well-being in case of a major disaster. The information you register can be accessed from anywhere in Japan over EZweb or the Internet.

Registering the safety information

- ◆ When a major disaster strikes, you can use your au cellphone to access the "災害用伝言板" (Disaster Message Board) on EZweb and register your current condition, comments, and other information about your well-being.
- After you register information, it can be sent by mail to family, friends, and other individuals you have registered as a recipient of your Disaster Message Board information.

Checking the safety information

- Disaster Message Board information can be accessed by inputting the phone number of an individual over EZweb or the Internet.\*\*
  - \*\* Disaster Message Board information can be accessed from another type of cellphone, PHS, or PC at http://dengon.ezweb.ne.jp/.

Access method 『 ▶ ▶ ▶ au one Top ▶ ▶ 災害用伝言板

(Disaster Message Board)

http://dengon.ezweb.ne.jp/

- $\ensuremath{\,\mathbb{X}}$  Registration contents are retained for up to 72 hours.
- ※ You can register up to 10 entries per phone number. Registering a new entry while there are already 10 registered entries, automatically overwrites the oldest entry.
- ※ You can view a Disaster Message Board demonstration at:
  - □ → au one Top → auお客さまサポート → 災害用伝言板(デモ版)

(au Customer Support) (Disaster Message Board (Demo))

\*\* To view the Disaster Message Board in English, select the "English" option on the Disaster Message Board top screen.

# Ready

Before using the W63CA, check the contents of the package coming with your W63CA. You should also familiarize yourself with basic operations, like how to charge the battery, how to turn the power on, etc.

# **Checking the Contents of the Package**

- Battery pack (63CAUAA)
- (63CAPUA)
- Desktop holder Casio round-type earphone jack conversion adaptor 03 (03CAQNA)

SONY MDR-E0921

- Casio USB cable 03 (MiniB) (03CAHUA)
- (sample)

CD-ROM

- Warranty (Japanese)
- Osaifu-Keitai® Basic Manual (Japanese)
- LISMO Installation Guide (Japanese)
- Operating Precautions (Japanese)
- Global Passport CDMA Owner's Guide (Japanese)
- Promotional Fliers (Japanese)
- Basic Manual (Japanese)Instruction Manual (Japanese)

- OAn AC adaptor is not included. It is up to you to purchase a common AC adaptor 01/02 (option).

# **Names of Parts**

#### Side

will not affect reception quality.

# **Charging the Battery Pack**

The battery pack that comes with the phone is not fully charged when you purchase it. Be sure to charge the battery pack before using the W63CA for the first time. Charging takes about 140 minutes. You should recharge the battery pack whenever the battery level icon shows or shows.

Check the shape of connectors before connecting, and ensure that you plug them in as far as they will go.

## (!) CAUTION

- ©You must purchase a common AC adaptor 01/02 (option) for charging. Note that the configuration of the AC adaptor may be different from that shown in the illustration above.
- Whenever connecting or disconnecting the common AC adaptor 01/02 (option) to the desktop holder, make sure the connector on the back of the desktop holder is positioned horizontally.

# Connect the common AC adaptor 01/02 (option) to the desktop holder.

Check the shape of the connectors to ensure they are aligned correctly before you connect.

Trying to force a connection may damage the connectors.

- Attach the closed phone to the desktop holder in the sequence 2-1, 2-2, aligning the locking tabs of the holder with the slots on the sides of the phone.
- Fold out the power plug of the common AC adaptor 01/02 (option), and then plug it into a 100V AC power outlet.

This will cause the W63CA charge indicator (LED) to light red, and (charging battery icon) to display. When charging is completed, the charge indicator (LED) will go out.

 You can connect the common AC adaptor 01/02 (option) to the W63CA directly to charge the battery pack.

Fully open the external connection jack cover, check the shape of connectors and insert it horizontally.

# **Turning On Power**

1

# Hold down for at least 2.5 seconds.

The message "Now Loading..." will appear on the display for a short while, followed by the standby screen.

Icon		Tá	T	T	Elont.
Signal Strength	Strong	Medium	Weak	Very Weak	Out of Range

- Communication is not possible while the signal strength icon is (Out of Range).

### ■ Turning off power

Hold down for at least 1.5 seconds.

#### **■** Key symbols used in this manual

The cursor key is described in this manual using the key symbols shown below.

a or v key:
or key: ••
^, , , • or ▶ key: �

# **Main Menu**

There are four initial main menus for W63CA. Pressing while the standby screen is displayed displays the main menu.

### िशिया 🛘

The menu structure depends on the type of the main menu.

# **TBD**

### Using Soft Keys

Soft keys are the keys you use to execute the functions along with the bottom of the screen. The table below explains how to assign the soft keys to the on-screen functions. Note that the function of each soft key depends on the currently displayed screen.

Left soft key	Executes the function on the left.
Center soft key	Executes the function on the center.
Right soft key	Executes the function on the right.

#### Using Submenus

Pressing the soft key that corresponds to the "SubMenu" at the bottom of the display will display a submenu of various operations related to the function you are currently using.

# **Viewfinder Position**

You can execute the operations with your W63CA open, set in Viewfinder position.

- CAUTION
- © Rotate your W63CA display in the direction as illustrated below (within 180 degrees from the normal position). Gently rotate your W63CA display. Otherwise, you may damage your W63CA.
- □ During rotating (motion 2-1), do not use your W63CA or force to give open-close motion. It may also cause damage.
- Open your W63CA display to stand straight up.
- Gently rotate the display 180 degrees clockwise.

- When you set your W63CA in Viewfinder position
- Close your W63CA so as to make your W63CA display facing toward you.

Viewfinder position

Viewfinder position refers to the position with your W63CA closed and its display turned over. In Viewfinder position, you can use side keys to operate your W63CA. You can also take photos using W63CA as a Viewfinder (digital camera-like). In roaming mode, you cannot make or receive a call in Viewfinder position.

# **Basic Operations in Viewfinder Position**

In Viewfinder position, you can use side keys (,, , ), ) to play songs listed with au Music Player and read the data. For key operations in Viewfinder position, you can use instead of , or use instead of .

#### Key operations in Viewfinder position

Key	Description
₹9-	<ul> <li>Displays the Manner menu.</li> <li>Toggles Manner Mode on and off (hold down for about one second).</li> <li>Set the ring tone mute and stop the vibrator when there is an incoming call.</li> <li>Returns to the previous screen.</li> <li>Returns to the standby screen (hold down for about one second).</li> <li>Hangs up (hold down for about one second).</li> </ul>
■ ▶	<ul> <li>Pressing  while the standby screen is displayed selects EZ News Flash telop/window or standby shortcut.</li> <li>Moves the cursor on the screen (instead of  (Up/Down key)).</li> </ul>
(a)	<ul> <li>Displays the main menu.</li> <li>Executes the function on the center part of the bottom of the screen (instead of</li></ul>
	<ul> <li>Starts au Media Tune</li> <li>Uses as shutter key when you shoot photos.</li> <li>Saves photos.</li> <li>Activates photo function (hold down for about one second).</li> </ul>

- On Viewfinder position, you can only execute the operations using side keys.
  When needed, you can execute other operations with your cellphone open.
- You can make or answer a call in Viewfinder position.
- During a call in Viewfinder position, check the earpiece position to hear the caller's voice properly. During a call or recording a call, the image you see on the screen is upside down.
- During a call, it is recommended to use your cellphone opened.
- In this manual, operation procedures are usually for the normal position (with display facing inward toward the keypad). For operations in Viewfinder or self-portrait position (with display facing outward), the position you can use is clearly mentioned.

# **Initializing E-mail and EZweb**

An EZweb subscription is required to use e-mail, EZweb or other EZ services. If you did not subscribe when you purchased your phone, contact your nearest au shop or the au Customer Service Center.

- \* You will be assigned an e-mail address automatically when you perform the EZweb initialization procedure.
- While the standby screen is displayed, press .
- Press (OK).

  Wait until the phone connects to the server for initialization.
- After your automatically assigned e-mail address appears, press (OK).

ाण ि

Pressing [2]/[7] also allows you to make initial settings.

# Looking Up Your Current Phone Number and E-mail Address

- While the standby screen is displayed, press .
- Press To to .

  Your current phone number and e-mail address appear.

# **Changing Your E-mail Address**

- While the standby screen is displayed, press .
- Press (E-mail Setup).
- Press [4 th Gill (Other).
- Press [1.®] (Eメールアドレスの変更) (Change E-mail Address).

- Enter your Security Code, press (OK), use (to to select "送信" (Send), and then press (Select). Use (to select "承諾する" (Accept), and then press (Select).
- Use to select the text box, and then press (Input). Enter the e-mail address you want, and then press (OK).

To input an e-mail address

→"Inputting an E-mail Address" (page 41)

Use ♣ to select "送信" (Send), and then press ■ (Select).

The e-mail address confirmation screen appears.

Press to select "OK," and then press (Select).

The message "Update is complete." appears to indicate that your e-mail address has been changed.

#### 

- ©Your Security Code is the 4-digit number you entered on your subscription contract. If the wrong Security Code is entered three times a day, the setting operation will be disabled until the following day.
- Olf your e-mail address won't change in step 7:
  The new e-mail address you entered may be registered by someone else already. Try entering a different address.

# **Phone Call**

# **Making a Call**

1

While the standby screen is displayed, use the number keys ( to standard) of the keypad to enter the phone number you want to call.

When calling a standard phone, you need to enter the area code.

2

#### Press 🦃

After you finish a call, press to hang up.

The caller always hears your voice even when you cover the microphone with your hands.

#### **Send Methods**

You can select whether to notify/not to notify your cellphone number to the other party by pressing (Call) and displaying Outgoing Menu in step 2.

To not notify: Select "Add Special No." in Outgoing Menu→

(OK) →Select "184"→

(Add) →

(Ad

To notify: Select "Add Special No." in Outgoing Menu→ (OK)
→Select "186"→ (Add) → (♣)

To call without any settings: Select "Voice Call" in Outgoing Menu→ (□) (OK).

 When calling without any settings, your cellphone number is either notified or not notified according to "Caller ID" settings of your phone.

# **Making an International Call**

#### au International Call Service

Available without any additional application.

Ex: To call 212-123- $\triangle\triangle\triangle$  in the USA

- Calling charges for this service are added to monthly mobile phone calling charges and billed together.
- Please check the Country code at the au Customer Service Center.
- For charges, please refer to the au MOBILE PHONE SERVICE GUIDE or contact the au Customer Service Center.

#### ■ 001 KOKUSAI MOBILE TALK

Application required.

For inquiries, please contact the KDDI Customer Service Center.

0077-7160 (toll-free; open 9:00 to 20:00 on everyday including weekends and national holiday)

Ex: To call 212-123- $\triangle\triangle\triangle$  in the USA

- Charges for 001 KOKUSAI MOBILE TALK are charged separately from monthly au telephone charges.
- Please check the Country code at the au Customer Service Center.
- For charges, please refer to the au MOBILE PHONE SERVICE GUIDE or contact the au Customer Service Center.

# **Answering a Call**

Press 🕟 to answer an incoming call.

After you finish a call, press to hang up.

ाणी ।

#### **Display for Incoming Calls**

If the caller's name is in your address book, it appears on the display. If not, only the caller's phone number is displayed.

A message appears when the phone number of the caller is not provided for some reason.

ID Unsent: The caller's phone refused to send its

phone number.

Payphone: The call is from a payphone.

Not Support: The call is from a phone that does not

support caller ID.

#### **Missed Call Notification**

The message "Missed Call X" appears on the display if you did not answer one or more calls. Press (Select) to check incoming histories (caller phone number, etc.). To redial a number

→ "Redialing (Outgoing Histories/Incoming Histories)" (page 31)

# Redialing (Outgoing Histories/ Incoming Histories)

- While the standby screen is displayed, press ••.
  - : Displays outgoing histories.
  - : Displays incoming histories.
- Use 🗘 to select the number you want to dial, and then press 🏂.

The phone stores up to 50 histories each for the outgoing histories and incoming histories. When a history is created while there are already 50 histories in memory, the oldest current history is deleted automatically to make room for the new one.

# **One-ring Calls**

#### ■ What is a "One-ring Call"?

A "One-ring Call" is an incoming call that rings your phone only once, which aims it to be stored in your incoming histories. If you redial the number shown in your incoming histories, often you are connected to a dating service or some other service that may bill you very high charges. Always keep in mind that it is a good idea to avoid calling back unfamiliar numbers.

#### One-ring Call indicator

The **!!!** icon indicates an incoming call you did not answer. The **!!!** icon indicates an incoming call that rang for three seconds or less. These calls may be One-ring Calls with high possibility.

# **Changing the Ringtone**

- While the standby screen is displayed, press , use to select "Function," and then press (Select).
- Press [2 / / Sound/Vib/ Lamp).
- Press . (Incoming Setup).
- Press . (Incoming Call).

Press (Original).

To hear the currently selected ringtone, press (Play).

Use 🗘 to select the ringtone you want, and then press 🔳 (Set).

Press [77] (OK).
The ringtone is set.

Organia (Constant)

You can also download a "Chaku-Uta®" from the Internet and use it for your ringtone.

→ "Downloading Chaku-Uta®/Chaku-Uta-Full®" (page 70)

# **Adjusting the Ringtone Volume**

To adjust the ringtone volume, perform steps 1 through 4 under "Changing the Ringtone" (page 32), and then continue with the following steps.

- Use ♥ to select ๗ and press (Select).
- Use to adjust the ringtone volume, and then press (Set).
  - : Increases volume.
  - : Decreases volume.
- Press 🗹 (OK).

Organia (Constant)

STEP↑: Ringtone volume gradually increases. STEP↓: Ringtone volume gradually decreases.

OFF: Ringtone does not sound.

## Adjusting the Earpiece Volume during a Call

- 1
- During a call, use 🗘 to adjust the volume.
- (\*): Increases volume.
- : Decreases volume.

You can adjust the earpiece volume (level 1-5 and Max).

### **Turning On Manner Mode**

While Manner Mode is set to on, the phone alerts you to incoming calls by vibrating.

While the standby screen is displayed, hold down ☑→ for at least one second.

This turns on Manner Mode. The ♥ icon appears on the display while Manner Mode is turned on.

Turning on Manner Mode also turns on Answer Memo, which is indicated by en the display. While Manner Mode is set to on, the phone vibrates without sounding its ringtone.

To turn off Manner Mode, hold down 🗺 for at least one second.

While the standby screen is displayed, you can press \(\overline{77-}\) to select the Manner Mode type. Holding down \(\overline{77-}\) for at least one second while the standby screen is displayed will enable the Manner Mode type you selected.

## **Turning On Answer Memo**

1

While the standby screen is displayed, hold down for at least one second.

This turns on Answer Memo. The 🖪 icon appears on the display while Answer Memo is turned on.

You can use Answer Memos (up to 6 memos), and each memo can contain up to 30 seconds recording time.

To turn off Answer Memo, hold down for at least one second.

#### Oran D

- **○** Using the Answering Service (Voice Mail)
  - The Answering Service (Voice Mail) can be used to answer the phone and take messages when the phone is turned off, or when you are in a location where signal reception is not possible.
- © You can record Answer Memo and Voice Memo up to 6 messages within 30 seconds.

## **Playing an Answer Memo**

## When there is a recorded Answer Memo

The message "Answer Memo" appear on the standby screen.

Select "Answer Memo," and press (Select).

"Answer Memo List" appears.

Use to select the Answer Memo you want to hear, and then press (Play).

The Answer Memo plays back.

To delete an Answer Memo, press while the standby screen is displayed. Select the Answer Memo you want to delete, press (SubMenu), and then (Delete). Next press (Delete One), and then press (YES).

## **Using Overseas**

You can use the W63CA overseas with global functions.

### **Setting Area**

- While the standby screen is displayed, press .
- Use to select "Global Functions," and then press (Select) and (OK).
- Use ♣ to select "Area Setting," and then press (Select).
- Use to select "Overseas," and then press (Select).

### **Calling to Japan from Overseas**

- While the standby screen is displayed, enter the phone number and then press (Dial).
- Use to select "Voice Call," and then press (OK).
- Use ♣ to select "Dial to Japan," and then press (OK) and (Dial).

#### 

- © Although the preferred roaming list (PRL) is already stored in the phone at the time of purchase, the list may be updated several times a year. Update it before departure.
- © You can use like a normal cellphone when calling from Japan to an overseas cellphone compatible with Global Passport CDMA.
- © You need to sign up for the EZweb service before departure. Initial setting of EZweb must also be done in Japan.

## **Inputting Characters**

Input characters using keypad keys  $\frac{0.7}{0.00}$  through  $\frac{9.5}{0.000}$ , and  $\frac{*}{0.000}$ .

The table below shows the characters each key cycles through when you press it.

Key	Number of Presses									
	1	2	3	4	5	6	7	8	9	
1 a		@	-	_	/	:	~	1		
2 か ABC	а	b	С	А	В	С	2			
3 8 DEF	d	е	f	D	Е	F	3			
닉 た GHI	g	h	i	G	Н	I	4			
5な JKL	j	k	I	J	K	L	5			
등 は mno	m	n	0	М	N	0	6			
7 # PORS	р	q	r	S	Р	Q	R	S	7	
B %	t	u	V	Т	U	V	8			
9 6 WXYZ	W	Х	У	Z	W	Х	Υ	Z	9	
_ to_	O Space	O Space!"#\$%&'()*+,/:;<=>?@[\\]^\\\]								
* ·°	Switch between upper case and lower case of the entered alphabet character.									
小	Inputs (.,-!?) when no character is entered.									
# 改行	Returns to the previous character (Back function) when entering characters.									
	Inputs a line break after the entered character has been settled.									

<sup>•</sup> In order to input consecutive characters that are assigned to the same key, press • to move the cursor (highlighted), and then press the same key to input next character.

#### (B) CAUTION

#### **Allowable Characters in Your E-mail Address**

Your e-mail address (the part at the left of "@") can contain up to 30 characters, including single-byte English lower case letters, hyphens (-), periods (.) and underbars (\_).

A period (.) or a zero (0) cannot be used as the first character. Characters and symbols that are shaded in the above table cannot be used at the left of "@" in the address format "\abla \abla @ezweb.ne.jp."

## Inputting an E-mail Address

■ Inputting "mark@ezweb.ne.jp"

In this example, we will input "mark@ezweb.ne.jp" for [E-mail Address1]. To input [E-mail Address1], perform steps 1 through 6 under "Registering an Address Book" (page 43), and then perform the following steps.

1

#### Input "mark."

To input "m": Press Table once.

To input "a": Press Table once.

To input "r": Press Table once.

To input "k": Press Table once.

To input "k": Press Table once.

Press [79] (SubMenu), and then [3] & (Phrase).

Use to select "@ezweb.ne.jp," and then press (Select).

## **Inputting Pictograms**

The following procedure shows how to input pictograms into the body text when creating a new e-mail message.

1

#### Press E.

You can switch between Pictogram→
Symbol (Full-Size/Half-Size)→Face Mark
→Pictogram by pressing [E].

Use to select the pictogram you want, and then press (Select).

Use [79] (Category) or [\*\*]/[#\*] to scroll through the various categories of pictograms. To input pictograms consecutively, press [9] (Repeat) instead of [9] (Select).

## **Address Book**

## **Registering an Address Book**

- While the standby screen is displayed, hold down for at least one second.
- Select " [Name]," and then press (Select).
- Enter the name, and then press (OK).

The [Reading] is generated automatically when you enter a name. To input text

- →"Inputting Characters" (page 40)
- Use to select
  "[Phone No.1]," and
  then press (Select).

Enter the phone number, and then press (OK).
Use to select the No.
Type, and then press
(Select).

When entering the number of a standard phone, be sure to include the area code.

Use ♦ to select
"ऒ [E-mail Address1]," and
then press ■ (Select).

If you do not want to enter an e-mail address, jump to step 8.

Enter the e-mail address, and then press (OK).

Use ( to select the E-mail Type, and then press (Select).

To input an e-mail address

→"Inputting an E-mail Address" (page 41)

Press 🗹 (Reg).

- The Address Book can contain up to 1,000 records.
- Address book records are numbered from 000 through 999. A new record is automatically assigned to the lowest available unused record number.
- ②An address book record can also contain a group, image, street address, birthday, and other personal information.
- ©To delete an address book record, press 

  while the standby screen is displayed. Use 
  to select the address book you want to delete, press 

  (SubMenu), and then 

  (Delete). Next press 

  (Delete One), and then press 

  (YES).

## **Editing an Address Book Record**

**Example: To edit the phone number of "Tom Carter"** 

- While the standby screen is displayed, press , use to select the record you want to edit.
- Press (Detail), and then (Edit).
- Use to select
  "Usual 0900006XXXX," and
  then press (Select).
- Make the changes you want, press (OK).
  Use to select the No.
  Type, and then press (Select).

To delete characters, press \_\_\_\_\_.

Press (Reg). Use to select "Overwrite," and then press (OK).

# Adding Outgoing or Incoming History Data to the Address Book

- While the standby screen is displayed, press , use to select the phone number you want to register, and then press (SubMenu).
  - : Displays outgoing histories.
  - : Displays incoming histories.
- Press [2,7) (Reg to Adrs Book).
- Press [1.8] (Register New).
- Use to select the No. Type, and then press (Select).

The phone number is entered automatically. To enter the name and other items, refer to step 2 under "Registering an Address Book" (page 43).

## **Dialing from the Address Book**

- While the standby screen is displayed, press ☐, and then use ❖ to select the record whose phone number you want to dial.
- Press (Detail).

  The detail screen of the record appears.
- Use to select the phone number, and then press .

## **Pair Function**

You can register up to five phone numbers (like frequently used ones from the address book).

You can make calls or send mails to these registered numbers (called Pair Partners) more easily.

### **Registering a Pair Partner**

While the standby screen is displayed, press 😓.

> Use ( ) to select the 1 through 5 tab where you want to register the Pair Partner.

- Use 🗘 to select "Reg./ Can.," and then press (Select). Press (YES).
- Use 💠 to select the address book record for the person you want to register as a Pair Partner, and then press ( ) (Detail).
- Press (Select). When there is more than one phone number/e-mail address registered in the address book, the Pair Function phone number/e-mail address selection screen

will appear.

48

# Making a Phone Call or Sending Mail to a Pair Partner

- While the standby screen is displayed, press 🖘.
- Use •• to select the Pair Partner.
- Use ♦ to select "Call," and then press (Select).

Sending E-mail: Selecting "E-mail" and then pressing (Select) will display a screen for composing and sending an e-mail message.

Sending C-mail: Selecting "C-mail" and then pressing (Select) will display a screen for composing and sending a C-mail message.

For the subsequent procedure, see "Creating and Sending E-mail Messages" (page 52)/"Creating and Sending C-mail Messages" (page 58).

#### िशिवा ।

In order to register a person as a Pair Partner, the person's name, phone number, and other information need to be registered in the address book beforehand. Use the procedure under "Registering an Address Book" (page 43) to create the required record before trying to register a person as a Pair Partner.

Your W63CA supports two types of mail: e-mail and C-mail.

### **Using E-mail**

To use e-mail, you need to subscribe to an EZweb service. If you did not subscribe when you purchased your phone, contact your nearest au shop or the au Customer Service Center.

In addition to an EZweb subscription, you also need to perform an initialization procedure before you can use e-mail. If you have not performed initialization yet, refer to "Initializing E-mail and EZweb" (page 24).

E-mail lets you exchange mails with a PC and with another cellphone that supports e-mail function.

You can send mail messages that contain up to 5,000 double-byte characters (10,000 single-byte characters), and you can attach photos to e-mail messages.

- ※ You can send e-mail up to 30 recipients (includes To/Cc/Bcc, within 640 single-byte characters) at a time. When Adrs. Count Limit is set to "Restrict," you can send up to 5 recipients at a time (includes To/Cc/Bcc, within 640 single-byte characters).
- You can send up to 1,000 e-mail messages (each addressee counts as a separate message) per day.
- The sending and receiving operations may take longer when a mail message has data attached.
- Packet communication fee (varied by the sent/received data amount, regardless of the connection time) is charged to send/receive an e-mail.

### **Using C-mail**

C-mail lets you exchange text messages that contain up to 50 double-byte characters (100 single-byte characters) with another au cellphone that supports C-mails.

\* C-mail transmission fee is charged when sending C-mail.

#### **About C-mail Safety Block**

C-mail Safety Block blocks C-mails that contain accessing URLs (http://△△△, https://△△△) or phone numbers in its body text.
 C-mail Safety Block is set to on at the time of purchase. If you want to receive C-mails that contain accessing URLs or phone numbers in their body texts, you can disable this function to receive such C-mails.

## **Creating and Sending E-mail Messages**

While the standby screen is displayed, press .

Press . (Create New).

Select . Address, and then press (Select).

Press (Select).

• Address to which the e-mail will be sent.

You can send e-mail up to 30 recipients (includes To/Cc/Bcc, within 640 single-byte characters) at a time. When Adrs. Count Limit is set to "Restrict," you can send up to 5 recipients at a time (includes To/Cc/Bcc, within 640 single-byte characters).

Press (Address Book), use to select an addressee, and then press (Detail).

You can select an addressee from sent histories, received histories, address book group, or profile, or you can enter an address.

Use 🗘 to select the e-mail address you want to enter, and then press (Select). Press (OK). Use to select "Subject," and then press (Select). Subject of the e-mail message. Enter the subject, and then press (OK). Use 🗘 to select " ✓ Text," and then press (Select). Body of the e-mail message. Enter the body text, and then press (OK). Press (Send) or . The message "E-mail Sending completed." appears on the display after

the e-mail message is sent.

## Reading Received E-mail Messages

#### When you receive an e-mail

Select "E-mail," and then press (Select).

Press (Select).

⊠: Indicates an unread message.

©: Indicates an already read message.

Use to select the unread e-mail you want to view, and then press

(Select).

The received e-mail message appears. If all of the message cannot be displayed, press v to scroll. Use and st to scroll between messages. Press 22204 to return to the e-mail message list.

### Reading an E-mail Message with an Attached Photo

- Use 🗘 to select the e-mail message, and then press 🔳 (Select).
- Use 🛟 to select the attached data, and then press 🔳 (Select).
- Use to select a file name, and then press (Play).

#### ODGO

- ©Depending on the type of the attached data, the contents may be displayed at the last of the body text.
- ©Depending on the size of the attached data, it may not come in at the same time as the mail message. If this happens, use 🗘 in step 3 to select the file name, press 🔳 (Receive), and then press 🔳 (Play).
- ©The sending and receiving operations may take longer when a mail message has data attached.
- ©Certain signal conditions may also cause e-mail sending and receiving to take longer than normal.

## Replying to a Received E-mail Message

To reply to an e-mail message, perform steps 1 through 3 under "Reading Received E-mail Messages" (page 54), and then perform the following steps.

1

#### Press (Reply).

(Subject) is prefixed with "Re:," and the body text of the e-mail is quoted.

2

Use ♣ to select "

Text," and then press

(Select).

For the remainder of this procedure

→Perform the procedure starting from
step 7 under "Creating and Sending
E-mail Messages" (page 52).

### **Avoiding Spam**

It is recommended that you use our mail filter function to block spam.

You can use the "Supportive settings" to easily configure mail filter settings by answering questions that appear on the display.

#### Configuring Mail Filter Settings

Example: To access the "サポート設定" (Supportive settings)

- ① While the standby screen is displayed, press  $\[ \]$  .
- ② Press (E-mail Setup) → (Mail Filter).
- ③ Use ♣ to select "次へ" (Next) and then press (Select).
- (4) Enter your Security Code, press ■(OK).
  - → Use 🗘 to select "送信" (Send) and then press 🔳 (Select).
- (5) Use (♣) to select the item and then press (Select). Next, follow the instructions that appear on the display.

#### ■ "カンタン設定" (Simple Settings)

	You can choose filtering options by answering		
"サポート設定"	our questions.		
(Supportive settings)	It is recommendable for those who want to check		
	the filtering conditions one by one.		
   "フィルターレベル(高)"	You can block all the mails from PC.		
(Filter level (Strict))	It is recommendable for those who use only		
(Filler level (Strict))	cellphones to send e-mails.		
	You can block the e-mails from specified		
	addresses in addition to the e-mails containing "未		
"フィルターレベル(中)"	承諾広告※" (unsolicited advertisement) in their		
(Filter level (Medium))	titles and "なりすましメール" (spoof e-mail).		
	It is recommendable for those who are bothered		
	by specified spam senders.		
	You can block the e-mails containing "未承諾広告		
"フィルターレベル(低)"	* (unsolicited advertisement) in their titles, and		
(Filter level (Normal))	"なりすましメール" (spoof e-mail).		
	It is recommendable for all e-mail users.		

#### Organ L

You can prevent spam by changing your e-mail address. See "Changing Your E-mail Address" (page 26) for information about how to change your e-mail address.

## **Creating and Sending C-mail Messages**

- While the standby screen is displayed, hold down for at least one second.
- Press [1.5] (Create New).
- Enter the body text, and then press (OK).
- Select " [Address]," and then press (Edit).

Press (Quote Adrs Book), use to select an addressee, and then press (Detail).

You can also select a phone number from sent histories or received histories, or you can enter an address.

Use to select the phone number you want to enter, and then press (Select).

Press (Send) or .
When the C-mail reaches the other party, the message "Mail delivered" appears,

and the message is stored in the Outbox.

## Reading Received C-mail Messages

#### When you receive a C-mail

The message "C-mail" and 💆 appear on the standby screen.

Select "C-mail," and then press (Select).

Press (Select).

: Indicates an already read message.

Use to select the unread C-mail you want to view, and then press (View).

The received C-mail message appears. Use [a] and [b] to scroll between messages.

Press to return to the C-mail message list.

## Camera

### **Using the Camera**

Use your images for W63CA functions!

You can use photos you shot for the standby screen, for the image that appears when receiving a call, and in your address book.

2 Send images by e-mail!

Within 500KB, you can send a photo as an e-mail attachment.

※ Certain signal conditions may cause e-mail sending and receiving to take longer than normal.

### **Tips for Better Photos**

Use your thumb to press (Shoot) to release the shutter.

# Tips for Avoiding Hand N ven Remain steady by keeping you irms with your feet about shoulder work.

- When you press the shutter button, remain still until your shutter tone finishes sounding.
- A self-timer is also provided for shooting photos. With the self-timer, you do not need to

#### **Auto Focus**

W63CA has built-in auto focus function. You can shoot photos with the subject properly focused simply by pressing the shutter key.

#### **Photo Sizes**

with your W63CA.

Photo Sizes		
W.paper (Normal) 240×320	"Photo Folder"	
	W63CA's Data Forer	BU
0.3M 640×480 1M 1280×960 1.5M (Wide) 1600×960 2M 1600×1200	"DSC Folder" in microSD™ memory card	set to "W.paper (Wide)" and Photo (DSC Mode) is set to "2M."  **Photos are saved in Data Folder when a microSD memory card is not inserted irrespective of the photo size.

### **Shooting a Photo**

- While the standby screen is displayed, press ■, use ◆ to select "Camera," and press (Select).

  Press □. (Photo (W.paper Mode)).
- Point the lens at the subject, and press

  (Shoot).

The phone emits a shutter sound. Note that the phone emits the shutter sound even if it is in Manner Mode. Check the subject through the monitor screen (within the area indicated as [+], and release the shutter.

Press (Save).

The photo you shot is stored in the "Photo Folder" in the Data Folder, and then returns to the photo monitor screen.

#### 

#### When shot mistakenly

If the photo is not what you want to take, press in step 3. Next, repeat step 2 to redo.

## **Viewing Photos**

- While the standby screen is displayed, press ■, use to select "Data Folder," and then press (Select).
- Use to select "Photo Folder," and then press (Select).

Selecting "All Data" displays a list of all photos in the "Photo Folder."

Use \$\frac{\*}{}\$ to select the folder, and then press (Select).

A list of all photos that were shot on that day are displayed.

Use to select the photo you want to view, and then press (Select).

The photo is displayed.

## Attaching a Photo to an E-mail Message

Perform the procedure from step 1 to 2 under "Shooting a Photo" (page 63), and then perform the following steps.

Press (E-mail), and then press (E-mail).

The photo you shot is stored in the "Photo Folder" in the Data Folder.

Perform the procedure starting from step 2 under "Creating and Sending E-mail Messages" (page 52) to create an e-mail message.

You can attach any photo you have shot to an E-mail, but data over 500KB cannot be sent.

EZweb subscription required

### **Using EZweb**

To use EZweb, you need to subscribe to an EZweb beforehand. If you did not subscribe when you purchased your phone, contact your nearest au shop or the au Customer Service Center.

In addition to an EZweb subscription, you also need to perform an initialization procedure before you can use EZweb. If you have not performed initialization yet, refer to "Initializing E-mail and EZweb" (page 24).

EZweb is an information service for simple Internet access from your phone. EZweb lets you search for information on the Web, and provides you with access to Chaku-Uta®, the latest news, and other web-based contents (information sites).

Packet communication fee (varied by the sent/received data amount, regardless of the connection time) is charged when connecting EZweb.

### Displaying the au one Top

1

While the standby screen is displayed, press [2], use •• to select "EZweb," and then press [1.8] (au one Top).

- ! CAUTION
- The layout and contents of the EZweb screens shown here are for example purposes only.
- Some sites may charge you for the content in addition to transmission charges.

# **EZ Navi**

# **EZ Navi Features**

EZ Navi uses global positioning system (GPS) information to provide you with useful information.

### Checking your route: Passenger Seat Navi

Passenger Seat Navi makes it possible for the passenger (non-driver) in a motor vehicle to check route information to a destination using both voice and map guides.

# **TBD**

#### When you check where your child is: Security Navi

"Security Navi" application is composed of following three functions

"いつでも位置確認" (Auto Position Search) (paid), "エリア通知" (Area Message) (free), and "位置確認メール" (Position Search Mail) (free).

These functions enable you to check the location of an au cellphone supporting "Security Navi" and receive an alert mail which is sent to a particular au phone whenever another phone enters (or is inside of) or exits (or is outside of) a preset area by operating W63CA.

# au Media Tuner

EZweb subscription required

au Media Tuner makes it possible to enjoy using Television (1Seg) and EZ Channel-Plus.

# au Media Tuner Features

With au Media Tuner, you can switch between television operation screen/data operation screen and enjoy Television (1Seg) of terrestrial digital audio broadcasts.

By switching the channel be displayed.

#### Television (1Seg)

There are two types of digital TV broadcasting: the terrestrial digital television programs you view on your home television and the 1Seg, which is the name of a broadcasting service for cellphones. Television (1Seg) lets you view 1Seg broadcasts

Terrestrial digital television is broadcast using the same UHF band radio waves as terrestrial analog broadcasts.

#### **EZ Channel-Plus**

You can use au Media Tuner to play back programs registered with EZ Channel-Plus/EZ Channel.

## Using the built-in TV antenna

When viewing with Television (1Seg), take care to avoid covering the built-in TV antenna with your hand in order to ensure proper reception.

- You need to perform an initialization procedure before you can use au Media Tuner. If you have not performed initialization yet, refer to "Initializing E-mail and EZweb" (page 24).
- No packet communication or other communication fees are charged for using au Media Tuner.
- No packet communication or other communication fees are charged for watching data broadcasting programs. However, you will be charged for packet communication if you use the interactive service provided by data broadcasting programs or access to the information site on EZweb.
- ©You will not be able to view au Media Tuner broadcasts after changing models or on a W63CA was use to mind the role cancelled. You can use au Media Tuner to play back properties at ed in four Data Folder after changing models or canceling the properties.
- ○When remaining battery level shows during au Media Tuner is active, a message (indicating the battery will be soon discharged) appears, and automatically stop au Media Tuner.
- The following shows the approximate Television (1Seg) continuous viewing time\*1 with the W63CA.

Earphone	Time with DBEX On: 5 hours, 10 minutes Time with DBEX Off: 5 hours, 20 minutes
	Time with DBEX On: 5 hours, 00 minutes Time with DBEX Off: 5 hours, 00 minutes

- \*\*1 Time measured under the conditions below. Actual continuous viewing time may vary depending on data broadcast operations, etc.
  - Display: Full-screen; Earphone Volume: 10; Caption: Off; Brightness: 3.
- © The W63CA may fall to receive radio signals properly depending on the location or radio wave receiving conditions. In this case, the quality of the picture or the sound may be lower than usual or not available.
- The display layout and contents shown here are for example purposes only.

# **Configuring au Media Tuner Initial Settings**

Perform the following procedure before using au Media Tuner for the first time.

1

While the standby screen is displayed, hold down for at least one

Escape clause is displayed. If you select "OK (以後表示しない)" (OK (Do not display again.)), the display will not appear in the future.

2

A screen for configuring au Media Tuner initial settings will appear. Follow the instructions on the screen to configure the settings. After you are finished the channe setting screen will appear.

3

Use → to select "才一卜設定(放送波)" (Auto Setting) and then press (選択) (Select).

This automatically configures reception area and channel settings and displays the television screen.

If you want to configure area settings manually, select "マニュアル設定" (Se Manually).

# **TBD**

- © You may run into problems when configuring channel settings in step 3 in areas where 1Seg terrestrial digital television broadcast for cellphone/mobile service has just started.
- Whenever you start up au Media Tuner, the channel you were viewing the last time you used it will appear first. If you move to a different viewing area and are unable to receive the currently configured channels, reconfigure channel settings.

# Using Television (1Seg)

1

While the standby screen is displayed, hold down for at least one second.

You need to perform an initialization procedure before you can use au Media Tuner. If you have not performed initialization yet, refer to "Configuring au Media Tuner Initial Settings" (page 77).

When you start up au Media Tuner after configuring initial settings, the channel of the mode you were viewing the last time you used will appea

2

# Use ♥ and ₽ o cland the channel.

Use ( in television operation screen and ( in data operation screen to adjust the volume.

With EZ Channel-Plus, you can select a program with 中 and then press (再生) (Play) to start playback.

### Dafo.

- When you start up au Media Tuner, it may take some time to acquire images and, especially in the case of a data broadcast, data. This is due to the characteristics of digital broadcasts.
- OIn any mode, pressing while the final channel is displayed or while the first channel is displayed will switch mode.

# **Exiting au Media Tuner**

**TBD** 

# **Bluetooth**

# **Displaying Bluetooth Menu**

1

While the standby screen is displayed, press , and then select [ACCESSORIES] and [Bluetooth].

Bluetooth Menu is displayed.

Select Device	Select from initial registration completed wireless devices to output sound by wireless applications.	
Waiting ON/OFF	Set Waiting ON/OFF.	
Initial Register	Perform initial registrations for wireless devices and hands-free devices.	
Data Receive	Make W63CA waiting for receiving data from the other device.	
Bluetooth Setup	Setup for Bluetooth® functions.	

# Registering Bluetooth® Devices

When connecting from W63CA to Bluetooth® devices, you need to register the Bluetooth® device you want to connect beforehand. You do not need to operate this procedure to connect to an already registered device.

1

From Bluetooth Menu (page 81), select [Bluetooth Setup] and [Device List], and then press (Search).

Device which answered will be displayed.

Select the Bluetooth® device to connect, and then press (Connect).

Input the passkey (1 to 8 digits), and then press .

Input the same passkey between W63CA and the Bluetooth® device.
When connected, the Bluetooth® device will be registered.

# Registering Wireless Devices and Hands-free Devices

Perform initial registrations for wireless devices and hands-free devices. Please operate this procedure within 10 meters from the device.

From Bluetooth Menu (page 81), select [Initial Register].

Select [Wireless Device]/
[Hands-Free Device] and
[YES], and then press .

Select the device, and then press . Input the passkey (1 to 8 digits), and then press .

After performing initial registrations for hands-free devices, connection waiting will automatically start and be connected to hands-free devices.

After performing initial registrations for wireless devices, confirmation screen will appear. Select "YES" and press to change the settings for "Select Device."

# **Using Bluetooth® Functions**

When Waiting ON is set, you can use wireless output, hands-free call, and dialup connection.

From Bluetooth Menu (page 81), select [Waiting ON/OFF].

Select [Waiting ON] or [Waiting OFF].

You can also set Waiting ON/OFF by pressing for at least one second while the standby screen is displayed.

# **USB** Connection

# **Connecting to PCs**

After installing the "USB driver," operate the following procedure to connect W63CA and the PC by using the desktop holder and the Casio USB cable 03 (MiniB).

- Connect the Casio USB cable 03 (MiniB) to the USB port of the PC.
- Connect the desktop holder and the Casio USB cable 03 (MiniB).
- Turn W63CA on and set it to the desktop holder after the standby screen is displayed. When all connection is completed, the PC will automatically recognize W63CA.

### OT (1)

- ©Do not connect W63CA to the PC before installation is completed.
- ◎ If USB mode setting screen appears on the W63CA display when connecting W63CA to the PC, select "Data Comm Mode" or "Highspeed Trans."
- ©You cannot directly connect the Casio USB cable 03 (MiniB) to the W63CA. Please use the desktop holder.
- When you use the optional USB cable WIN (0201HVA) to connect, the desktop holder is not necessary. Turn W63CA on and connect the USB cable WIN (0201HVA) to the external connection jack of the W63CA after the standby screen is displayed.

# **Other Functions**

# **Security Setup Features**

With Security Setup, you can make a phone call to preregistered numbers or use high-volume buzzer just holding down on at least one second.

# Safety Buzzer

You can use W63CA as high-volume emergency buzzer by holding down of the form at least one second while the standby screen is displayed.

# To turn on Safety Buzzer

While the standby screen is displayed, press (OK).

# ■ To stop Safety Buzzer

To stop Safety Buzze linput the lock to., and then press (OK).

\*\* You cannot turn off V 3CA per arm my oper operation while the Safety Buzzer is southing.

\*\* Will continue to sound until you input the lock No, or the battery fully discharges.

#### Hot Dial

With Hot Dial, holding down of at least one second will dial a preset phone number.

#### To turn on Hot Dial

While the standby screen is displayed, press (OK).

Next, input the phone number you want to preset, and then press (a) (OK).

- The Safety Buzzer will sound through the W63CA's speaker while the Casio round-type earphone jack conversion adapter 03 and the SONY MDR-E0921, flat-type switched earphone microphone (option), or flattype stereo earphones microphone (option) is connected.
- © Even when Manner Mode is on, Safety Buzzer sounds

In addition to the functions covered in this Basic Manual, your W63CA also has the following features.

#### **Global Passport GSM**

W63CA supports Global Passport GSN based on au IC-Card.
Global Passport GSM is an international roaming service for the customers to use the phone replacing its au IC-Card with GSM cellphone for overseas use. No special application procedure or daily/monthly fee are needed, and the call charge is added up to domestic call, so the pay procedure is simple.

#### LISMO

You can use LISMO Player to enjoy a Chaku-Uta-Full® or your favorite. CD tracks. Also, you can down and a Chaku-Uta-Full® or purchase ( tracby accessing "au one Music."

#### PC Site Viewer

You can view WEB sites created for PCs.

#### **Bar Code Reader & Maker**

You can use the camera to read QR codes and bar codes. Also, you can create your own bar codes directly from your address book entries.

#### Touch Message

Send and receive message, address book, data folder data between devices which supports EZ FeliCa function.

#### **Infrared Communication**

You can exchange the data saved in your Address Book, Schedule, Bookmarks, or Data Folder between devices supporting infrared communication.

#### **EZ Apps (BREW**®

Enjoy downloaded games and other software

#### **Earthquake Early Warning**

Provides Earthquake Early Warning to au phones at once which are in the surrounding area of the seismic center. The most tion is distributed by the apply Metabrological Agency.

# If you lose your W63CA

Configuring settings for Remote Ctrl Lock makes it possible to perform a remote operation that activates Auto Lock, FeliCa Lock and Address Book Lock to lock the W63CA. This helps to avoid unauthorized use of your phone and its features.

## Configuring Operating Environment Settings for Remote Ctrl Lock

Repeatedly calling the W63CA from a pre-registered telephone number a specified number of times within a specified amount of time will activate Auto Lock, FeliCa Lock and Address Book Lock.

1

While the standby screen is displayed, press \( \begin{align\*} \frac{\partial \text{T.} \text{OK}}{\partial \text{CK}}, input the lock No., and then press \( \begin{align\*} \left( OK). \end{align\*} \)

Press 1.5 (Valid to.), ise 1 to sect "Register New," and press 1 the phone number and press 2 (comp).

You can enter the caller ID number by selecting from the address book, outgoing histories, incoming histories, sent histories, received histories, memo, profile, payphone. Otherwise, you can enter the number directly.

Press (Duration (min)), input the period you want to specify, and then press (Set).

You can set the time period (the time intervals from the first call to the last call you should make to activate Remote Ctrl Lock). You can set the time period between 1 to 10 minutes.

4

Press (No. of Incm), input the number of calls you want to specify, and then press (Set).

You can set how many times you should repeat making a call to activate Remote Ctrl Lock. You can set it from 3 to 10 calls.

# **FCC Notice**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help and for additional suggestions.

### Warning

The user is cautioned that changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

# **FCC RF EXPOSURE INFORMATION**

Warning! Read this information before using your phone.

In August 1996, the Federal Communications Commission (FCC) of the United States, with its action in Report and Order FCC 96-326, adopted an updated safety standard for human exposure to radio frequency electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies. The design of this phone complies with the FCC guidelines and these international standards.

### **Body-worn Operation**

This device was tested for typical body-worn operations with the back of the phone kept 0.59 inches (1.5 cm) from the body. To comply with FCC RF exposure requirements, a minimum separation distance of 0.59 inches (1.5 cm) must be maintained between the user's body and the back of the phone, including the antenna. All beltclips, holsters and similar accessories used by this device must not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with FCC RF exposure limits and should be avoided.

## Turn off your phone before flying

You should turn off your phone when boarding any aircraft. To prevent possible interference with aircraft systems, U.S. Federal Aviation Administration (FAA) regulations require you to have permission from a crew member to use your phone while the plane is on the ground. To prevent any risk of interference, FCC regulations prohibit using your phone while the plane is in the air.
